

Dr. Benjamin Watts
Chair of NeXus International Advisory Committee,

I endorse the participation of Takahiro Matsumoto as a member of the NeXus International Advisory Committee, representing Japan Synchrotron Radiation Research Institute and SPring-8. He takes a leadership on project for experimental data transfer system for open data at SPring-8. I recommend he is an appropriate person served as a NIAC member to promote the activities of NeXus at SPring-8. Please register his membership of the NIAC for the next three year term.

Yours sincerely,

Handwritten signature in black ink, reading '松 下 智 裕' (Matsushita Tomohiro).

Tomohiro Matsushita
Director of information-technology Promotion Division
Japan Synchrotron Radiation Research Institute
